- Ensure quality of programs based on statewide standards as they emerge.
- Advocate for increased access & resources to deliver arts education in schools & in communities.
- Build capacity among our partners to be the best advocates we can be.

The Starting Point

According to a 2020 report, “Newark Kids Count 2020,” the child population under 18 years old was 69,941 children in 2018. Given that data, combined with the Arts Ed New Jersey 2018 Arts Census, it is estimated that the majority of Newark children do not have access to a high-quality arts education.
